Smarter Meetings. Better Workspaces. Real Results.

Reimagine your workplace with the combined power of MAXHUB, Mersive, Rocware, and Rethink, the seamless bundle that transforms how teams connect, collaborate, and create.

The Challenge
In today's hybrid world, meetings often start with delays, clunky cables, poor audio, or remote participants struggling to feel included. Productivity drops, frustration rises, and your technology ultimately works against you.

The Solution: The MAXHUB, Mersive + Rethink Bundle
By combining world-class content sharing, intelligent AV, and workspace integration, we've created a solution that makes work environments truly work.

MAXHUB BYOM Dongle – One Click. Any Device. Total Simplicity.
A plug-and-play Bring Your Own Meeting (BYOM) dongle that lets users drive the room's camera, audio, and display directly from their laptop, no setup, no apps, and no learning curve. Start meetings in seconds with consistent, reliable performance every time.

Rethink – Spaces Designed for People.
Workplace experts who integrate technology with your space. From room booking and signage to full AV integration and environment control, Rethink ensures every workspace is intuitive, consistent, and easy to manage.

Why It Works Better Together
- Inclusive collaboration – Multiple people can share and contribute in real-time.
- Hybrid-ready rooms – High-quality audio and video keep remote teams fully engaged.
- Effortless experiences – No cables, no confusion, no wasted time.
- Scalable environments – From huddle spaces to boardrooms, every room works the same way.
- Future-proofed investment – Designed for today's needs and tomorrow's opportunities.
